PROFESIONAL BUILDING

This Week:

How to make your resume
AI proof (using AI):

- ChatGPT
- Resume formatting

ATS & RESUME FORMATTING

ATS (Applicant Tracking System):

- ATS is a software used by employers to filter, scan, and rank resumes before a recruiter sees them
- Over 90% of Fortune 500 companies use ATS to manage job applications
- 75% of resumes never reach a human due to ATS filters

How it works:

- Keyword Matching – Scans resumes for keywords (skills, job titles, certifications)
- Formatting Analysis – Reads structured, text-based resumes; struggles with graphics, tables, or fancy designs.
- Ranking Candidates – Assigns scores based on how the resume aligns with the job
- Eliminating Unqualified Applicants – May ATS reject resumes with missing qualifications or poorly formatted text

AI PROOFING YOUR RESUME

Tips to bypass ATS :

- The best way to beat AI is to use AI-generated bullet points to match job-specific keywords
- Example prompt: “Make my resume ATS-friendly for this job.”
- Use ATS friendly file name: “YourName_Resume.pdf”
- Use an ATS scanner and ATS friendly resume template

Passes ATS

Liam J. Ford US Citizen liam7ford@gmail.com (415)-306-6674 LinkedIn: liam-ford-81892128a GitHub: liamford1	
EDUCATION	
University of Colorado Boulder B.A. in Computer Science Minor in Business Administration	Boulder, Colorado <i>Expected Graduation, May 2027</i>
Related Coursework: Computer Science 1, Data Structures, Computer Systems, Human-Computer Interaction, Discrete Math, Algorithms, Software Development, Linear Algebra, Marketing and Management	
SKILLS	
Programming: C, C++, Python, JavaScript, TypeScript, HTML, CSS, React.js, SQL, Keras, TensorFlow, NumPy, Pandas, SciKit-Learn, Matplotlib, PyTorch Other: Git, Docker, UI/UX Design, Software Development, Prompt Engineering, Excel, Communication, Leadership	
EXPERIENCE	
CU AI Club - Executive Board <i>Director of Operations/Technology</i>	Boulder, Colorado <i>Jan 2025 - Current</i>
- Develop and maintain a responsive, password-protected membership website for the CU AI Club using React, TypeScript, and Tailwind CSS, incorporating collapsible navigation, dynamic search filters, and secure authentication to enhance user experience and streamline club communications - Plan biweekly professional building workshops, discussions, and hackathons to equip club members with hands-on experience with AI applications and emerging technologies - Establish and manage an AI externship program, collaborating with industry professionals and professors to integrate AI-driven solutions into real-world business problems	
Divis Consulting Inc. <i>Field Engineer</i>	San Francisco, California <i>May 2020 - Aug 2024</i>
- Collected data by facilitating soil and foundation testing to develop geotechnical engineering reports - Conducted floor-level surveys to detect earth settlements in residential structures and logged data in Excel to provide accurate assessments of structural stability - Collaborated with civil and geotechnical engineers, geologists, and project managers to ensure successful project completion and effective problem-solving	
Chase Ace Hardware <i>Sales Representative</i>	San Rafael, California <i>Dec 2021 - May 2023</i>
- Leveraged customer service and communication skills to ensure a positive and helpful experience for customers - Trained new employees in POS systems, inventory software, and customer service skills, contributing to increased team efficiency	
PROJECTS AND CERTIFICATIONS	
Encryption Software - C++ Developed a versatile encryption and decryption program with C++ algorithms implementing multiple ciphers, applying advanced C++ features, and standard library components to enhance performance and readability	
AI Spam Detection - TensorFlow Developed a spam detection model using TensorFlow, achieving 98% accuracy, leveraging NLP preprocessing techniques like tokenization, padding, and text vectorization to classify messages as spam	
IBM AI Engineering Certification Hands-on skill building in: Keras, TensorFlow, PyTorch, Fine-Tuning, LangChain, Language Modeling, Pandas, NumPy, Matplotlib, SciKit-Learn, Prompt Engineering, RAG, LangChain	
ACTIVITIES AND LEADERSHIP	
Sigma Nu Fraternity - Gamma Kappa Chapter <i>Member</i>	Boulder, Colorado <i>Dec 2023 - Current</i>
- Contribute to multiple internal committees to facilitate large recruitment, social, and philanthropic events - Actively participate in leadership, community service, and mentorship programs	

Fails ATS

KS

KEVIN SCOTT

An experienced undergraduate biology professor with a Ph.D. in Molecular Biology with an emphasis on molecular biology and genetics. Proven track record in providing an engaging student environment, delivering rigorous curricula, and conducting impactful research. Average student recommendation rate of 98%. Won a Teaching Innovation Award for the biology department.

 LinkedIn | Portfolio
 Boston, MA 02108

EDUCATION

- Doctorate in Molecular Biology
Boston University, Boston, MA | August 2010 - May 2015

KEY SKILLS

- Blackboard
- Classroom management
- Curriculum development
- Experimental design
- Laboratory management

PROFESSIONAL EXPERIENCE

Professor | University of Utah, Salt Lake City, UT

- Taught an average of four classes per semester, including labs, with an average student recommendation rate of 98%
- Implemented active learning techniques that increased student participation by 35% and improved the average class grade by 10%
- Received the "Dr. Hurst Research Award" for 2022

Associate Professor | Ohio State University, Columbus, OH
August 2016 - May 2019

- Created two new elective courses in gene therapy and genetic engineering, with full enrollment in the second semester
- Decreased laboratory safety incidents by 50% by creating and implementing mandatory safety training course

AWARDS

Dr. Hurst Research Award for advancements in molecular biology | January 2022

Innovative Teaching Award | Ohio State University | January 2017
